

Folding Commuter Bicycle

This compact folding bicycle is designed for urban commuting. It features a lightweight frame, a Shimano drivetrain, and V-brakes.

Product Overview

Designed for the Modern Commuter

The Dash P18 combines the stiff, efficient feel of a full-size bicycle with the practical convenience of a portable frame. Designed for both morning commutes and weekend excursions, it features next-to-invisible folding hinges and a specialized Flat Pak stem for a significantly reduced folding footprint. This bicycle offers a perfect blend of performance, style, and compact versatility for urban living.
