

Folding Commuter Bicycle with Suspension

This compact folding bicycle is designed for urban commuting and recreational use. It features a red frame, front and rear fenders and a rear suspension system.

Product Overview

Urban Mobility Solution

This folding commuter bicycle is engineered for convenience and versatility in urban environments. Featuring a compact folding design, it allows for seamless storage and transportation, ideal for commuters with limited space. The inclusion of a rear suspension system and adjustable components ensures a comfortable ride, while the step-through frame design enhances accessibility.
