

Folding Commuter Bicycle

This compact bicycle is designed for urban commuting and recreational riding. It features a front basket, rear suspension, and full fenders for added convenience.

Overview

Urban Commuter Ready

This folding commuter bicycle is engineered for the modern urban environment, offering a seamless blend of portability and performance. With its compact folding design, it is an ideal solution for commuters who need to store their bike in tight spaces or carry it on public transport. Equipped with rear suspension and full fenders, it ensures a comfortable and clean ride regardless of city terrain.
