

Folding Electric Bicycle

This folding electric bicycle is designed for convenient storage and transportation. It features a battery pack and a motor integrated into the rear wheel.

Overview

Compact Electric Mobility

This folding electric bicycle is engineered for seamless urban commuting and easy storage. Its lightweight yet durable design allows for rapid folding, making it an ideal solution for professionals who need to combine cycling with public transport. Equipped with an integrated rear-hub motor and a seat-post mounted battery, it offers a balanced and practical ride for varied terrain.
