

Folding Electric Bicycle for Urban Commuting

This folding electric bicycle is designed for urban commuting and recreational riding. It features an electric motor integrated into the front wheel and a battery pack mounted behind the seat.

Overview

Urban Commuting Solution

This folding electric bicycle is engineered specifically for efficient urban commuting and recreational riding. Its compact, foldable design allows for easy storage in small spaces or transport on public transit. Equipped with an integrated front-wheel motor and a rear-mounted battery, it offers a practical balance of power and convenience for daily travel.
