Product Overview

Compact Urban Mobility

This versatile folding electric bicycle is engineered for the modern urban commuter, combining a lightweight 6061 aluminum frame with a powerful 250W hub motor. Its compact design allows for quick folding and easy storage, making it an ideal solution for multi-modal transportation. Equipped with a reliable 36V 10.4Ah lithium-ion battery and a 7-speed Shimano drivetrain, this e-bike offers a smooth, assisted riding experience for daily errands or city travel.
