

# Folding Electric Cargo Tricycle

This electric cargo tricycle features a flat folding design for easy storage and transportation. It is equipped with a front basket for smaller items and a large rear cargo box with a seat and backrest for passengers or larger loads.

## Overview

### Versatile Electric Cargo Solution

This electric cargo tricycle offers a practical and eco-friendly transportation solution for both goods and passengers. Designed with a unique flat-folding mechanism, it ensures convenient storage and portability without sacrificing durability. The robust steel frame and stable three-wheel configuration make it an ideal choice for heavy-duty daily use.
