

Folding Hex Key Set

This set of hex keys is designed for tightening and loosening screws and bolts with hexagonal sockets. Multiple sizes of hex keys fold into the handle for compact storage.

Overview

Compact Folding Hex Key Set

This 8-piece folding hex key set is designed for versatility and portability in professional and DIY environments. Featuring a compact, ergonomic handle, the tool set allows for easy storage while providing a comfortable grip during operation. Constructed from durable Cr-V material, these keys are built to withstand regular use in furniture assembly, bicycle repairs, and machinery maintenance.
