

Folding Pruning Saw with High-Carbon Steel Blade

This folding pruning saw is designed for cutting branches and limbs. The curved blade is made of high-carbon steel for efficient cutting and durability.

Product Overview

High-Efficiency Folding Pruning Saw

This professional-grade folding pruning saw features a precision-engineered, curved high-carbon steel blade designed for clean, rapid cuts that promote plant health. Its ergonomic handle ensures a comfortable and secure grip, significantly reducing hand fatigue during intensive pruning tasks. The integrated locking mechanism provides safety by keeping the blade securely positioned during operation, while the compact folding design allows for effortless storage and transport.

Performance

Applications

- Tree trimming
- Shrub maintenance
- Bush pruning
- General horticultural work
