

Folding Pruning Saw with High-Carbon Steel Blade

This folding pruning saw has a durable, sharp blade that is designed for the efficient cutting of branches and limbs. Its ergonomic handle provides a comfortable and secure grip and the folding design allows for safe storage and easy portability.

Product Overview

Professional Folding Pruning Saw

This high-performance folding pruning saw is engineered for precision cutting of branches and limbs in landscaping and gardening applications. Featuring a robust high-carbon steel blade, it offers exceptional edge retention and corrosion resistance for long-term reliability. The ergonomic design prioritizes user comfort, while the secure locking mechanism ensures safety during both operation and storage.

Technical Specifications

Blade Material	High-Carbon Steel
Mechanism	Folding
Safety Features	Secure Locking Mechanism, Open Position Lock, Closed Position Lock

Key Features

Primary Advantages

- Ergonomic handle for reduced hand fatigue
- Compact design for portability
- Corrosion-resistant blade coating
- High-carbon steel for sharpness longevity

Usage

Recommended Use

Gardening • Landscaping • Outdoor Maintenance
