

Folding Pruning Saw with Locking Mechanism

This folding pruning saw is designed for cutting branches and small limbs. It features a curved handle and a locking mechanism.

Product Overview

Professional Folding Pruning Saw

This folding pruning saw is an essential tool for efficient branch trimming and maintenance in landscaping and forestry applications. Featuring a razor-sharp, precision-ground blade and an ergonomic handle, it delivers clean, smooth cuts with minimal effort. The integrated safety locking mechanism ensures the blade stays securely in place during operation and remains safely folded when stored.

Technical Specifications

Blade Design	Curved, high-carbon steel
Safety Lock	Yes
Handle Features	Ergonomic, Curved, Enhanced Grip

Product Features

Capabilities

- Folding design for portability
- Locking mechanism for safety
- Optimized for cutting small limbs and branches
