

Folding Saw with Curved Blade

This folding saw features a curved blade with impulse-hardened teeth for efficient cutting. The ergonomic handle provides a comfortable grip, and the locking mechanism ensures safe operation.

Product Overview

Professional Folding Saw

This high-performance folding saw features a specialized curved blade designed for maximum efficiency in pruning and woodworking tasks. The integrated impulse-hardened teeth provide superior cutting longevity and sharpness for demanding projects. Designed with user safety in mind, the tool includes a reliable locking mechanism and an ergonomic handle for extended periods of comfortable use.

Technical Specifications

Blade Design	Curved blade for efficient cutting
Tooth Hardening	Impulse-hardened
Safety Mechanism	Yes

Ergonomics & Design

Recommended Applications

- Pruning
- General woodworking

Handle Style	Ergonomic comfort grip
