

# Folding Step-Through Electric Bicycle with Integrated Battery

This electric bicycle features a step-through frame and folding design for easy storage. It is equipped with a front basket, rear rack, and integrated battery pack.

## Product Overview

### Urban Mobility Solution

This folding step-through electric bicycle is engineered for efficient urban commuting and convenient storage. Featuring a compact, foldable frame design, it offers flexibility for city riders who need to save space without sacrificing performance. The integrated battery and rear hub motor drive system provide reliable power, while practical additions like the front basket, rear rack, and fenders ensure readiness for daily errands.
