

# Folding Stool with Curved Backrest

This ergonomic folding stool features a curved backrest for added support and comfort. Constructed from durable tubular steel with a powder-coated finish, it offers stability and longevity.

## Product Overview

### Ergonomic Folding Stool

This ergonomic folding stool is designed with a curved backrest to provide superior support and comfort during extended use. Featuring a durable tubular steel construction with a high-quality powder-coated finish, it is engineered for long-term reliability in busy work environments. The padded circular seat enhances the user experience, while the protective leg caps ensure your flooring remains scratch-free.
