

Folding Two-Step Ladder Stool

This lightweight, foldable two-step stool is designed for household and light-duty commercial use. Constructed from durable steel, it features non-slip steps and footpads for enhanced safety and stability.

Overview

Versatile Folding Two-Step Stool

This lightweight and foldable 2-step stool is engineered for both household and light-duty commercial applications. Constructed from durable steel, it provides a stable platform for reaching high shelves or assisting with maintenance tasks. The design prioritizes convenience and safety, featuring non-slip components and a space-saving foldable frame.
