

Food and Beverage Machinery Power Strip with Schuko Outlets

High-quality power strip designed for use in food and beverage machinery. It features multiple Schuko outlets for connecting various devices and provides reliable power distribution and surge protection.

Product Overview

Industrial-Grade Power Distribution

This high-quality power strip is specifically engineered for the demanding environments of food and beverage machinery. It features multiple Schuko outlets, providing reliable power distribution and essential surge protection for sensitive industrial equipment. With its durable construction, this unit ensures safe and continuous operation in professional settings.

Technical Specifications

Rated Current

16 A

Rated Current

Rated Voltage	250 V
Outlet Type	Schuko
Model Identifier	steckdosenleiste-3g

Features

Application Suitability

Food Machinery • Beverage Machinery • Industrial Environments

Key Features	Surge Protection, Industrial Grade, Durable Construction
