

Food and Beverage Processing Machinery

This machinery is designed for processing food and beverages. It ensures efficient and consistent results for various culinary and beverage production needs.

Product Overview

Natural Boiled Bamboo Shoots

These high-quality boiled bamboo shoots are vacuum-packed and sterilized at high temperatures to ensure safety and freshness. They are prepared without any additives or preservatives, making them a natural and healthy choice. Rich in fiber and low in fat, these shoots are versatile ingredients suitable for a wide range of culinary applications.

Nutritional Profile

Dietary Benefits	High Fiber, Low Fat, No Additives, No Preservatives, Natural Ingredients
------------------	--

Processing & Safety

Processing Method

Vacuum Packed • High-Temperature Sterilized

Product Details

Product Type	Boiled Bamboo Shoots
Product Code	000000132
