

Food Grade Aluminum Scoop with Ergonomic Handle

This heavy-duty aluminum scoop is designed for efficient transfer of granular or powdered food products. It features a sturdy, ergonomic black handle for comfortable grip and control.

Product Overview

Professional Food-Grade Handling

This heavy-duty aluminum scoop is engineered for the efficient transfer of granular and powdered food products in demanding environments. Featuring an ergonomic black handle for superior control, the angled design is optimized to minimize spillage and waste during high-volume operations. Constructed from food-grade materials, it ensures safe, hygienic handling for ingredients such as flour, sugar, grains, and cereals.

Technical Specifications

Ideal Environments
