

Food Mixer with Stainless Steel or Glass Bowl

This stand mixer features a powerful motor and a sleek design. It is available in two models: one with a stainless steel rotating bowl (KF-902CS) and another with a glass non-rotating bowl (KF-902CG).

Product Overview

Professional Mixing Performance

This high-performance stand mixer is engineered for efficiency and ease of use in professional kitchen environments. Featuring a robust motor and a sleek design with a chrome-finished head, it provides consistent mixing results for a variety of culinary applications. The unit is available in two distinct configurations to suit different operational preferences, ensuring durability and easy cleaning.
