Product Overview

High-Performance Inflation Solution

This foot-operated bicycle tire pump is engineered for efficiency, durability, and ease of use. Featuring a robust steel frame and dual-cylinder design, it provides reliable inflation for a wide range of tires, including bicycles, motorcycles, and cars. With integrated precision gauging and universal valve compatibility, this tool is an essential asset for both home workshops and on-the-go maintenance.

Technical Specifications

Supported Pressure Units

- PSI
- BAR
- KPA

Maximum Pressure	200 PSI
Valve Compatibility	Presta, Schrader

Key Features

Performance Highlights

200 PSI
Max Pressure

2 Count
Cylinders

Build Quality

Steel Frame • Dual Cylinder • Stable Base • Digital Gauge

Applications

Compatible Vehicles

- Bicycles
- Motorcycles
- Cars
