

Foot Pedal Film Sealing Machine

This foot-operated film sealing machine is designed for sealing plastic films of various thicknesses. It features adjustable sealing temperature and time, along with a sturdy metal frame and foot pedal for hands-free operation.

Overview

Professional Film Sealing Solution

The Foot Pedal Film Sealing Machine is a robust and efficient solution designed for high-volume packaging needs. Featuring hands-free foot pedal operation, it allows operators to maintain precision while sealing various plastic films. Its sturdy metal frame ensures long-term stability and durability, making it an ideal choice for industrial and commercial packaging applications.

Technical Specifications

Suitable Materials

- Various plastic film thicknesses

Model Number	FR-500
Operation Type	Foot-operated (Hands-free)
Key Features	Adjustable Temperature, Adjustable Sealing Time, Sturdy Metal Frame
