

Forged Steel Claw Hammer with Shock-Absorbing Handle

This claw hammer features a forged steel head and a shock-absorbing handle. It is suitable for a variety of construction, carpentry, and general repair tasks.

Product Overview

Professional Grade Claw Hammer

This forged steel claw hammer is engineered for durability and precision in demanding construction and carpentry environments. Featuring a smooth, high-impact face, it ensures accurate nail driving while the curved claw design allows for efficient and controlled nail removal. The integrated shock-absorbing handle is ergonomically designed to reduce user fatigue, making it an ideal tool for prolonged, heavy-duty tasks.

Technical Specifications

Head Design

- Smooth face for precision driving
- Curved claw for efficient extraction

Head Material	Forged Steel
Handle Features	Shock-Absorbing, Ergonomic, Anti-Fatigue

Applications

Primary Applications

Construction • Carpentry • General Repair
