

Forged Steel Pick Head with Pointed and Chisel Ends

Forged from durable steel, this pick head features a pointed end for breaking and a chisel end for prying. It is designed for use with a handle (not included) in construction, landscaping, and demolition.

Product Overview

Versatile Forged Steel Design

This heavy-duty forged steel pick head is engineered for demanding construction, landscaping, and demolition projects. It features a dual-purpose design with a pointed end for efficient breaking and a chisel end for precise prying and removal tasks. Crafted from high-strength steel, this tool ensures long-lasting durability and reliable performance in professional environments.

Technical Specifications
