

# Formaldehyde Elimination Solution

This solution is designed for air purification and odor elimination. It effectively decomposes formaldehyde, leaving no toxic residues or color.

## Product Overview

### Air Purification & Formaldehyde Elimination

This formaldehyde scavenger is a specialized solution designed to effectively eliminate formaldehyde and other harmful gases released from new furniture, vehicles, and newly decorated interior spaces. The formula is engineered to be non-corrosive and odorless, ensuring it does not introduce new chemical smells into your environment. By chemically neutralizing pollutants such as smoke and other off-flavors, it helps create a fresh, safe, and healthy living or working space.

## Product Details

Net Content	650 ml
Key Features	Non-corrosive, Odorless, Formaldehyde Elimination, Air Purification

## Application Areas

### Suitable Environments

- Newly decorated houses
- New furniture
- New vehicles
- Building materials

## Performance

### Targeted Contaminants

- Formaldehyde
- Smoke
- General off-flavors
- Enzyme-based odors
