

Forstner Drill Bit Set for Woodworking

This Forstner drill bit set is designed for creating clean, flat-bottomed holes in wood. The set includes multiple bit sizes, each featuring a cylindrical body with a center spur and outer cutting edges.

Product Overview

Precision Woodworking Performance

This Forstner drill bit set is engineered for professional woodworking applications, specifically designed for creating clean, flat-bottomed holes. Each bit features a center spur for accurate positioning and sharp outer cutting edges to ensure smooth, splinter-free entry. This set is the ideal solution for crafting decorative holes, mortises, and recesses with high precision.

Technical Specifications

Design Features
