

Forstner Drill Bit Set for Woodworking

This set of Forstner bits is designed for creating clean, flat-bottomed holes in wood. Each bit features a cylindrical cutter head with a center brad point for accurate positioning.

Product Overview

Precision Woodworking Performance

This Forstner drill bit set is engineered for creating clean, flat-bottomed holes in various wood applications. Each bit features a precise cylindrical cutter head combined with a center brad point, ensuring accurate positioning and smooth entry. Constructed from hardened steel, these bits are designed for durability and consistent, professional-grade performance in demanding woodworking projects.

Technical Specifications

Performance Benefits

- High durability
- Accurate positioning
- Clean, smooth hole finish

Material	Hardened Steel
Key Features	Flat-bottomed holes, Center brad point, Cylindrical cutter head, Hardened steel
Primary Application	Woodworking
