

Four-Bay Battery Charger for Rechargeable Batteries

This four-bay battery charger is compatible with AA, AAA, Ni-MH, and Ni-Cd rechargeable batteries. It features individual charging channels with LED indicators for monitoring the charging status.

Product Overview

Professional Four-Bay Charging Solution

This versatile four-bay battery charger is designed to efficiently power AA, AAA, Ni-MH, and Ni-Cd rechargeable batteries. Featuring independent charging channels for each battery, it ensures optimal performance and safety for every cell. The integrated LED indicators provide real-time status updates, making it a reliable solution for maintaining your rechargeable battery inventory.
