

Four-Burner Stainless Steel Gas Hob

This gas hob features four burners, including a triple flame wok burner, a rapid burner, and two semi-rapid burners. It has a stainless steel worktop and is designed for built-in installation.

Overview

High-Performance Four-Burner Gas Hob

This stainless steel gas hob offers a versatile cooking solution for modern kitchens, featuring four distinct burners to accommodate various cooking styles. Equipped with a high-output triple flame wok burner and precise side-control operation, it ensures efficient heat distribution and ease of use. Safety is prioritized with integrated flame failure devices on every burner and convenient under-knob auto-ignition for reliable performance.
