

Four-Burner Stainless Steel Gas Hob

This gas hob features four burners, including a triple flame, rapid, and two semi-rapid burners. It is designed with a stainless steel finish and front control knobs.

Product Overview

Professional Four-Burner Gas Hob

This high-performance four-burner gas hob is designed for professional kitchen environments, featuring a durable stainless steel worktop that ensures longevity and ease of maintenance. Equipped with a versatile range of burners, including a high-output triple flame work burner, it offers precise heat control for various cooking techniques. Safety and convenience are prioritized with integrated flame failure devices on every burner and reliable under-knob auto-ignition.

Performance Metrics

Burner Power Output

3.3 kW

Triple Flame Work Burner

3 kW

Rapid Burner

1.75 kW
