

Four-Cup Non-Stick Baking Pan

This is a four-cup baking pan designed for baking individual portions. The pan features a non-stick coating and is suitable for oven use.

Product Overview

Professional Four-Cup Baking Solution

This versatile four-cup baking pan is designed for efficient, consistent baking in commercial or home kitchens. Featuring a high-quality non-stick coating, it ensures easy release of desserts, muffins, and individual portions. The durable metal construction promotes even heat distribution, making it a reliable tool for high-volume baking tasks.
