

Four-Tier Chocolate Fountain

This four-tiered chocolate fountain is designed for creating cascading chocolate displays. It features a stainless steel construction with a heated base and rotating auger system.

Product Overview

Professional Four-Tier Chocolate Fountain

This four-tier chocolate fountain is designed to create elegant cascading displays for parties, events, and dessert presentations. Constructed with durable stainless steel, it features a heated base to maintain optimal chocolate fluidity and a rotating auger system for consistent circulation. The multi-level design ensures an even flow of melted chocolate, providing a premium experience for professional catering and hospitality environments.
