

# Four-Tine Steel Garden Fork with Wooden Handle

This steel garden fork is equipped with four tines for effective soil turning and material handling. It features a durable wooden handle that provides a comfortable and secure grip.

## Product Overview

### Professional Grade Garden Fork

This four-tine steel garden fork is engineered for high-performance gardening and agricultural maintenance. The robust steel head ensures durability when turning heavy soil, while the ergonomic wooden handle provides the necessary leverage for demanding tasks. Designed for versatility and longevity, it is an essential tool for effective soil cultivation and material handling.
