

Four-Wheel Agricultural Tractor

This four-wheel tractor is designed for agricultural applications. It features a powerful engine, heavy-duty tires, and a fully enclosed cabin for operator comfort and safety.

Overview

Robust Agricultural Performance

This robust four-wheel tractor is engineered specifically for demanding agricultural applications. It features a powerful engine and heavy-duty tires designed to provide optimal traction across diverse field conditions. With a fully enclosed cabin for operator comfort and safety, plus integrated mechanical and hydraulic systems, it efficiently handles tasks ranging from plowing and tilling to planting and harvesting.

Technical Specifications

Drive System	Four-Wheel Drive
Model Identifier	1254

Key Features

Included Attachments

- Front-end weight for stability
- Rear hitch for implement attachment

Cabin Features	Fully Enclosed, Operator Comfort, Safety Focused
----------------	--

Operational Capabilities

Suitable Operations

Plowing • Tilling • Planting • Harvesting
