

Four-Wheel Agricultural Tractor

This compact four-wheel tractor is designed for agricultural use. It features a robust engine, durable chassis, and efficient transmission for various farming operations.

Overview

Compact Agricultural Solution

This four-wheel agricultural tractor is engineered for versatility and durability in small to medium-sized farming operations. Featuring a robust engine and a sturdy chassis, it provides reliable performance for essential tasks such as plowing and tilling. Its efficient transmission system and ergonomic operator station ensure productivity and ease of use during long working hours.

Technical Specifications

Model Designation	250
Drive Type	Four-Wheel Drive

Key Features

Design Highlights

Robust Engine • Durable Chassis • Efficient Transmission

Primary Applications	Plowing, Tilling, General Farming
