

Fourteen-Bottle Built-In Wine Chiller

This professional embedded cabinet features a modern, stylish appearance and professional embedded design. It maintains accurate constant temperature and humidity.

Overview

Professional Wine Storage Solution

This built-in wine chiller provides a sophisticated and efficient storage environment for your wine collection. Designed with a compressor-based cooling system and dual temperature zones, it ensures optimal preservation conditions for various wine types. Its sleek black finish and stainless steel door frame allow for seamless integration into professional or residential kitchen cabinetry.
