

Fractional Horsepower AC Motor

This fractional horsepower AC motor is suitable for various applications. It features robust construction with a finned housing for efficient heat dissipation and includes a start/stop control box.

Product Overview

Fractional Horsepower AC Motor

This fractional horsepower AC motor is designed for reliable performance in light-duty industrial and commercial applications. Built with a durable, finned housing, it ensures efficient heat dissipation during operation. The unit comes equipped with an integrated control box featuring intuitive start/stop functionality for precise motor management.

Technical Specifications

Motor Type	Fractional Horsepower AC Motor
Construction Features	Finned Housing, Heat Dissipation Design, Mounting Base

Control & Operation

Control Interface

- Integrated Start/Stop Control Box
- Green Start Button
- Red Stop Button

Application Suitability

Light-Duty Applications • Precise Control Required
