

Freestanding Outdoor Radiant Heater

This portable patio heater offers focused warmth for outdoor environments. Its design features a protective mesh, a stable base, and a convenient handle for easy relocation.

Overview

Efficient Outdoor Comfort

This freestanding outdoor radiant heater is designed to provide reliable, directional warmth for patio and outdoor spaces. Featuring a durable anodized extruded aluminium alloy frame and a high-efficiency carbon fibre heating element, it balances robust construction with effective heating performance. With adjustable power settings and built-in safety features like a 360-degree tip-over switch, it offers a practical and safe solution for extending the use of outdoor areas in cooler weather.
