

Freestanding Water Dispenser with Filtration

This freestanding water dispenser offers hot, cold, and ambient water options. It features a multi-stage filtration system with three filter cartridges for sediment, activated carbon, and post-carbon filtration.

Product Overview

Clean Water on Demand

This freestanding water dispenser provides reliable hot and cold water access suitable for office or residential environments. Built with durable SUS304 stainless steel tanks and food-grade silicone plumbing, it ensures water safety and longevity. The unit features an integrated multi-stage filtration system, including sediment, activated carbon, and post-carbon filters for high-quality purified drinking water.
