

Freestanding Wine Refrigerator

This freestanding wine refrigerator can hold either 34 bottles with double-temperature control or 40 bottles with single-temperature control, both with a 110L capacity. The temperature can be set between 5-20°C for single-temperature control, or with the upper zone at 5-10°C and the lower zone at 10-18°C for double-temperature control.

Overview

Professional Grade Wine Storage

This freestanding wine refrigerator is designed to meet the rigorous standards of professional wine preservation. Featuring a sleek stainless steel design and advanced cooling technology, it offers either single or dual-temperature zone configurations to suit specific collection needs. Built for quiet operation and energy efficiency, this unit provides the perfect controlled environment for aging and storage.
