

Freestanding Wine Refrigerator with Glass Door

This freestanding wine refrigerator provides organized storage for wine bottles with its multiple shelves. It features a glass door for easy viewing and temperature control for optimal preservation.

Product Overview

Premium Wine Storage Solution

This freestanding wine refrigerator provides professional-grade storage for up to 165 bottles, making it an ideal choice for high-end dining or retail environments. With its versatile design, the unit can be used as a freestanding cooler or integrated as a built-in appliance to suit your specific layout. Featuring precise digital temperature control and a stylish smoked glass door, it ensures your wine collection is both beautifully displayed and perfectly preserved.
