

Freestyle BMX Bicycle with High Handlebars

This BMX-style bicycle is designed with a black frame and high handlebars. It is equipped with front and rear brakes, a padded seat, and durable spoked wheels.

Product Overview

Built for Performance and Style

This Freestyle BMX bicycle is engineered for riders who value both aesthetic appeal and technical performance. Featuring a unique frame design with a slightly curved top tube, this bike is perfectly suited for recreational use and performing tricks. Its combination of durable spoked wheels and reliable braking systems ensures that riders have the control and confidence needed for advanced maneuvers.

Design & Construction

Frame Geometry	Curved top tube design
Frame Color	Black
Handlebar Style	High-rise configuration

Safety & Control
