

Freestyle BMX Bicycle

This BMX bicycle is designed for freestyle riding and tricks. It features a durable steel frame, 20-inch wheels, and a responsive braking system.

Overview

Freestyle BMX Bicycle

The FM208 is a BMX bicycle specifically engineered for freestyle riding, tricks, and maneuverability. Built with a durable steel frame and 20-inch wheels, it is designed to handle the rigors of skate parks, street riding, and dirt jumps. Its geometry focuses on control and responsiveness, while the robust construction ensures longevity for aggressive riding styles.
