

Freestyle BMX Bike with Steel Frame

This BMX bike features a durable steel frame and fork. It is equipped with a steel crank, V-brakes, 20" x 2.35" tires and alloy rims.

Overview

Built for Performance and Durability

This 20-inch freestyle BMX bike is engineered with a robust steel frame and fork, designed to withstand the rigors of freestyle riding. It features reliable front and rear V-brakes for consistent stopping power and high-traction 20-inch tires paired with lightweight alloy rims. This combination of durable steel components and controlled braking makes it an ideal choice for riders seeking a dependable and responsive BMX experience.
