

Freestyle Trick Bike with Disc Brakes

This freestyle bike is designed for performing tricks and stunts. It features front and rear disc brakes for reliable stopping power.

Product Overview

Built for Performance and Style

This 20-inch freestyle trick bike is engineered for riders who demand both reliability and modern aesthetics. Featuring a robust steel frame and fork construction, it is designed to withstand the rigors of freestyle riding. Equipped with responsive disc brakes and durable alloy wheels, this bicycle offers excellent control and stopping power for trick maneuvers.
