

Freshness Refrigerator with Movable Wine Rack

This refrigerator features a movable wine rack and smooth, easy-to-clean plastic-coated steel. Activated carbon deodorizer technology eliminates odors and harmful substances, ensuring a fresh and clean refrigerator environment.

Product Overview

Premium Cooling Performance and Design

This modern refrigerator combines sleek aesthetics with high-performance cooling technology to provide an optimal storage environment. Featuring a versatile movable wine rack and advanced activated carbon deodorization, it ensures maximum space efficiency while keeping contents fresh and odor-free. Built with a high-efficiency compressor and premium insulation, it delivers reliable operation and energy-conscious performance for professional and home environments.

Key Features

Core Technologies

- Activated carbon deodorizer technology
- Rapid cooling function
- High-density foam insulation
- Integrated bending technology
- High-efficiency compressor
- LED luxury interior lighting
