

Frog-Themed Vertical Drop Ride for Amusement Parks

This amusement park ride features a central tower with frog-themed decorations and seats for riders. The ride simulates a jumping motion, lifting riders in a controlled manner.

Overview

Thrilling Frog-Themed Family Ride

The Frog Jumping ride is a captivating vertical drop attraction specifically designed for amusement parks and family entertainment centers. Featuring an engaging frog-themed aesthetic, the ride provides a safe yet exciting experience by simulating a jumping motion through controlled vertical movements. Its compact design and efficient capacity make it an ideal choice for parks looking to add family-friendly thrills.

Technical Specifications

Ride Height	9 m
Footprint	6 x 5 meters
