

Front Axle Brake Disc

This brake disc is designed for front axle applications. It is precision-engineered for smooth operation and reliable stopping power.

Product Overview

High-Performance Front Axle Brake Disc

This precision-engineered front axle brake disc is designed to meet rigorous standards for safety and reliability. Built with heat-resistant materials and a balanced construction, it ensures smooth, quiet operation while minimizing vibration during braking. This component provides consistent stopping power and extended service life for demanding automotive applications.

Technical Dimensions

Height	52.8 mm
Diameter	279 mm
Centering Diameter	62 mm
Pitch Circle Diameter	114.3 mm

Braking Performance

Disc Type	Vented
Disc Thickness	22 mm
Minimum Thickness	20 mm

Mounting Specifications

Number of Holes	5
-----------------	---

Physical Properties

Weight

6.5 kg
Weight

Compatibility

Compatible Vehicle Models

- PREVIA (TCR2_)
- PREVIA (TCR1_)
