Product Overview

Professional Grade Head Protection

This front brim safety helmet is engineered for high-performance protection in demanding industrial and construction environments. Constructed from durable HDPE, it features a 6-point suspension system and a foam-cushioned sweatband to ensure long-term comfort during extended wear. The helmet is fully certified to international safety standards, offering reliable impact defense and electrical insulation up to 20,000V.

Technical Specifications

Shell Material	High-Density Polyethylene (HDPE)
Electrical Insulation	20000 V
Suspension System	6
Ventilation	Non-vented
Adjustable Size Range	54-63 cm

Compliance & Standards

Certifications	CE EN 397, ANSI Z89.1 Type I Class E
----------------	--------------------------------------

Features & Customization

Color Options

White • Blue • Yellow • Red • Orange • Green • Customized

Accessory Compatibility

- Universal slot for ear muffs
- 2-point chin strap

Usage & Maintenance

Maintenance and Storage

Regularly inspect the helmet for cracks or flaws, particularly after any significant impact. Store in a cool, dry place away from direct sunlight, frost, and chemical agents. The helmet should always be worn with the peak forward and properly adjusted using the rear serrated roller system for maximum effectiveness.
