

Front Shock Absorber for ET Model

This front shock absorber is designed for the ET model. It enhances vehicle stability and ride comfort with optimal damping and durable construction.

Product Overview

High-Performance Front Shock Absorber

This high-performance front shock absorber is precision-engineered to deliver enhanced vehicle stability and superior ride comfort. Designed for durability, it ensures reliable performance and improved handling under various driving conditions. It serves as an ideal solution for both replacing worn original equipment and upgrading vehicle suspension systems for better control.

Technical Specifications

Key Features

- Robust construction
- Corrosion-resistant finish
- Easy installation
- Enhanced damping performance

Compatibility

ET Model

Primary Usage

Replacement, Upgrade, OE Compatible
