

Frozen Meat Block Cutter

This high-efficiency frozen meat block cutter is designed for industrial food processing. It precisely cuts large blocks of frozen meat into smaller portions, with stainless steel construction ensuring durability and hygiene.

Overview

Industrial Frozen Meat Processing

This high-efficiency meat block cutter is engineered to process frozen chicken, pork, and other meats at temperatures between -10°C and 0°C. By streamlining the preparation phase, it significantly reduces processing time and labor costs while enhancing hygiene by minimizing bacterial exposure. The robust construction ensures reliable operation and long-term durability in demanding food processing environments.

Performance Metrics

Processing Capacity

6 tons/h
Max Capacity

Power Output	13.2 KW
Spindle Speed	60 r/min

Technical Specifications

Rated Voltage	380 V
Dimensions (L x W x H)	2050 x 900 x 1535 mm

Operational Features

Operating Temperature Range	-10°C to 0°C
Key Benefits	High Productivity, Easy Maintenance, Robust Construction, Enhanced Hygiene
